Non-compliance may result in serious injuries, serious deterioration of your general condition or your death.

NOTICE

Product damage or other damage may occur in case of non-compliance.

2.3 Additional Information

 Download link for the Patient Information Document:[1)]	https://www.besspro.eu/pi/pi40033
This patient information is based on the following instructions for use:	40033-16 (2026-09)
Disclaimer for the availability of the SSCP	As a general rule: The SSCP will only be made available after the product has been authorised in accordance with REGULATION (EU) 2017/745 (MDR). The implementation described here does not apply until the corresponding module of the Eudamed database comes into force. Until then, the SSCP is available at the following download link: https://www.besspro.eu/sscp/sscp40033
Summary of Safety and Clinical Performance (SSCP): [1)]	https://ec.europa.eu/tools/eudamed To search for the product-specific SSCP, enter the basic UDI-DI of the product.
Basic UDI-DI (device identifier):	4063106FOLUNRPT

[1)] Updated on an ongoing basis. Other language versions are also available there.

For the complete UDI (UDI-PI) please refer to the product label.
The catalog number and batch code for your implant can be found on your implant card.

3 What you need to pay attention to

1. Always carry your implant card with you. Show your implant card and this Patient Information Document to your treating physician before undergoing diagnostic or therapeutic procedures.
2. Contact your doctor if you experience one or more of the following symptoms: Itching, pain, hearing loss
3. Stick to the appointments you make with your treating physician for follow-up examinations and observe their instructions for any necessary follow-up measures.

ATTENTION: Your bess|folio, unrestricted (> 29d) must be monitored regularly by your attending physician. Be sure to keep your appointments for these follow-up examinations and follow your physician's advice on the necessary aftercare measures. This is especially true when the intended lifetime of your bess|folio, unrestricted (> 29d) has been reached ([Expected Lifetime, page 3]).

4 Product Description

4.1 General information

Silicone sheetings for customisation. Depending on specification with polyester reinforcement.
[Specifications, page 3]

4.2 Materials with Potential Patient Contact

- Silicone sheetings: 100 % silicone, medical grade, implantable; depending on specification: with white pigments
